

# Peking University Bioaerosol Laboratory Bulletin (PKU-BLB) Volume 7, Issue 1

April  
2019

Our work about haze and bacteria was  
featured by New Scientist magazine!

Prof Yao organized  
an Environmental  
Frontier Research  
Symposium at  
Peking University

北京大学生物气溶  
胶实验室

Beijing, China

## Scientific Publications

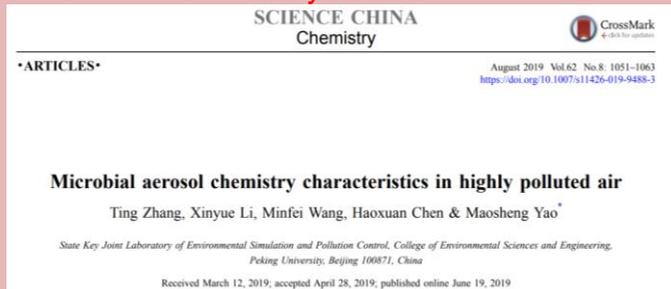

1. Our work about “Time-resolved spread of antibiotic resistance genes in highly polluted air” by Zhang et al (2019) was accepted for publication in Environmental International.

DOI:

<https://doi.org/10.1016/j.envint.2019.03.006>

2. Our work “Microbial Aerosol Chemistry Characteristics in Highly Polluted Air” by Zhang et al 2019 was published in China Science Chemistry

DOI:

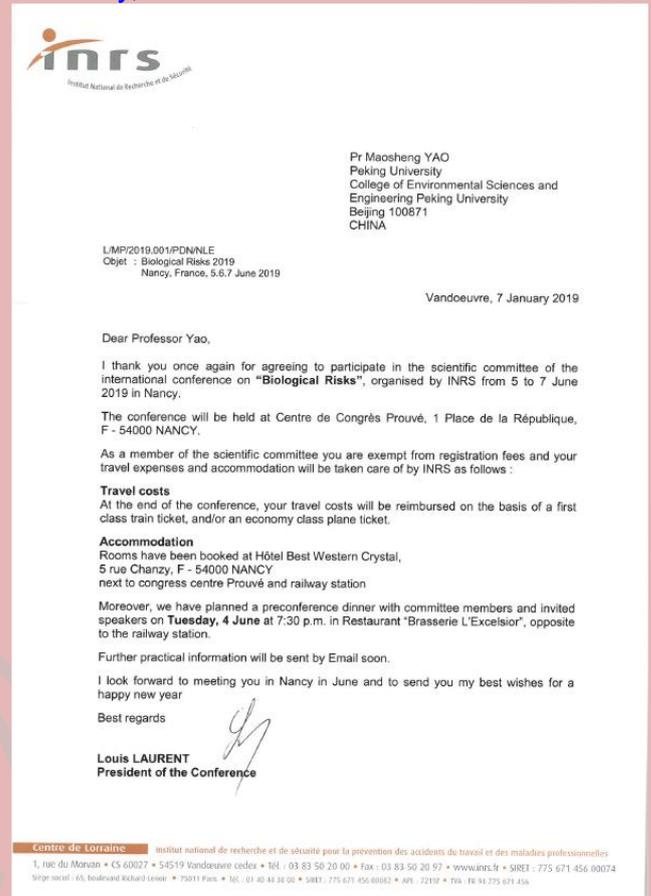

<https://doi.org/10.1007/s11426-019-9488-3>

3. Our patent about “Rapid DNA extraction method” was issued!

## Other Selected Scientific Activities

1. Prof Yao was invited to participate in Biological Risks conference to be held in Nancy, France!

2. Dr. Yao organized an Environmental Frontier Symposium at Peking University.

3. Prof Yao was appointed as a Boya Distinguished Professor (博雅特聘教授) starting Jan 1, 2018!

4. Dr. Yao was invited to give a talk at ISEG2019!

5. Our work about haze and bacteria was featured by New Scientist magazine!

6. Dr. Yao presented a working report on recent progress and status in indoor environmental health during the annual meeting of Indoor Environment and Health Branch, Chinese Society for Environmental Science

Dr. Yao was presenting at the meeting

7. Postdoc Siyu Xu finished her final dissertation defense and gave a representative speech during the graduate graduation ceremony in her school at Seoul National University, and joined our lab at PKU in April.

8. Prof Yao organized the second Air Bio-Security symposium at Peking University.

### Others

Dr. Yao's 46 years old birthday party. Thanks for the birthday cake!

Our next issue is expected to be in August 2019 & we look forward to exciting news from our group.
